

Coursework and Controlled Assessment Timetable 2018 -2019

Coursework (CW)

Although some subjects dedicate class time to modular coursework it is mainly written work produced by the student independently and in their own time.

Controlled Assessment (CA)

Controlled assessment is a new approach for those subjects that require internal assessment.

It is a tightening of the circumstances in which candidates, over a period of time, complete those aspects of the subject that are usually marked by their teacher.
